Accessing the Site

To access this web application users need to have access to the internet and a web browser (Shown in Figure 1). Once users have these prerequisites they can go to the following URL: <https://yourdomain.com/home.php> in your web browser. This URL works on both desktop and mobile platforms.

Figure 1

Navigate on the Site

Once a user is on the home page they can start looking around and learning about what we have to offer at Rapids Cemetery using the web application. Site navigation includes the Map page, Historic Trails page, Contact page, FAQ page, and a Donate page (Shown in Figure 3). The logo provides a path back to the home page (Shown in Figure 4).

Figure 3 - Primary Navigation:

Figure 4 - Logo Navigation:

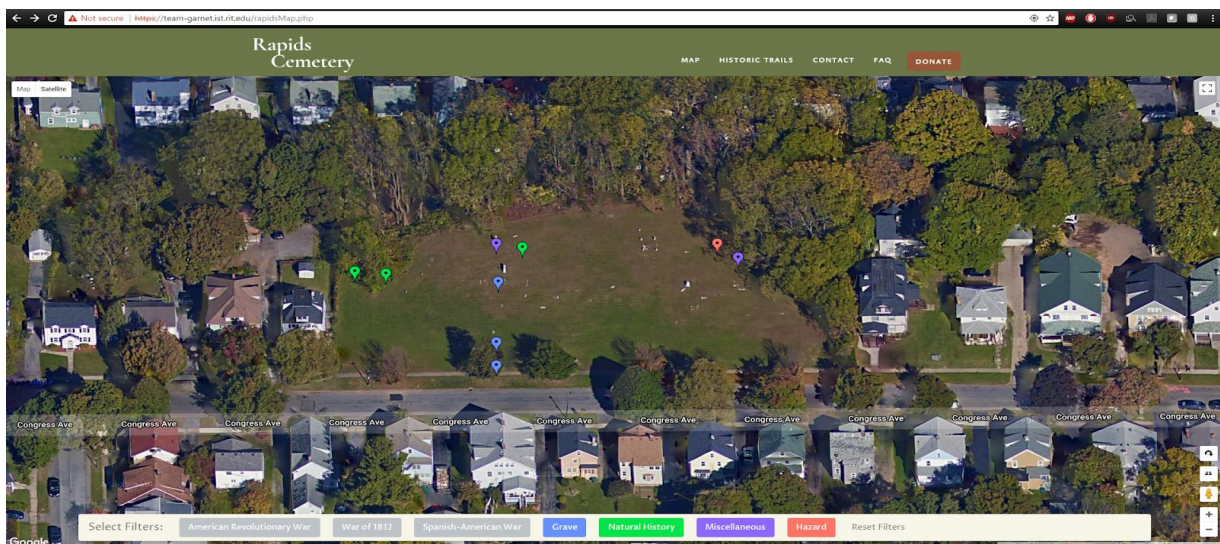

Using the Cemetery Map

The Map page(rapidsMap.php) is accessed by clicking the 'Map' link on the navigation bar, or by clicking the Explore Map button on the Home page. Color coded pins are displayed on the map of the Rapids Cemetery (Shown in Figure 5). Pin coloring correlates to types of items on the plot. The four generic type are floral, grave, hazard, or a miscellaneous.

The map has Google Map functionality as displayed by the zooming in(+), zooming out(-) , street view, 2D or 3D view, and map positioning by clicking and dragging.

A blue dot on the map displays the users location. It is updated every 15 seconds and it's accuracy is based on your phone's reception. For user location to display access must be granted to the site from the user's device.

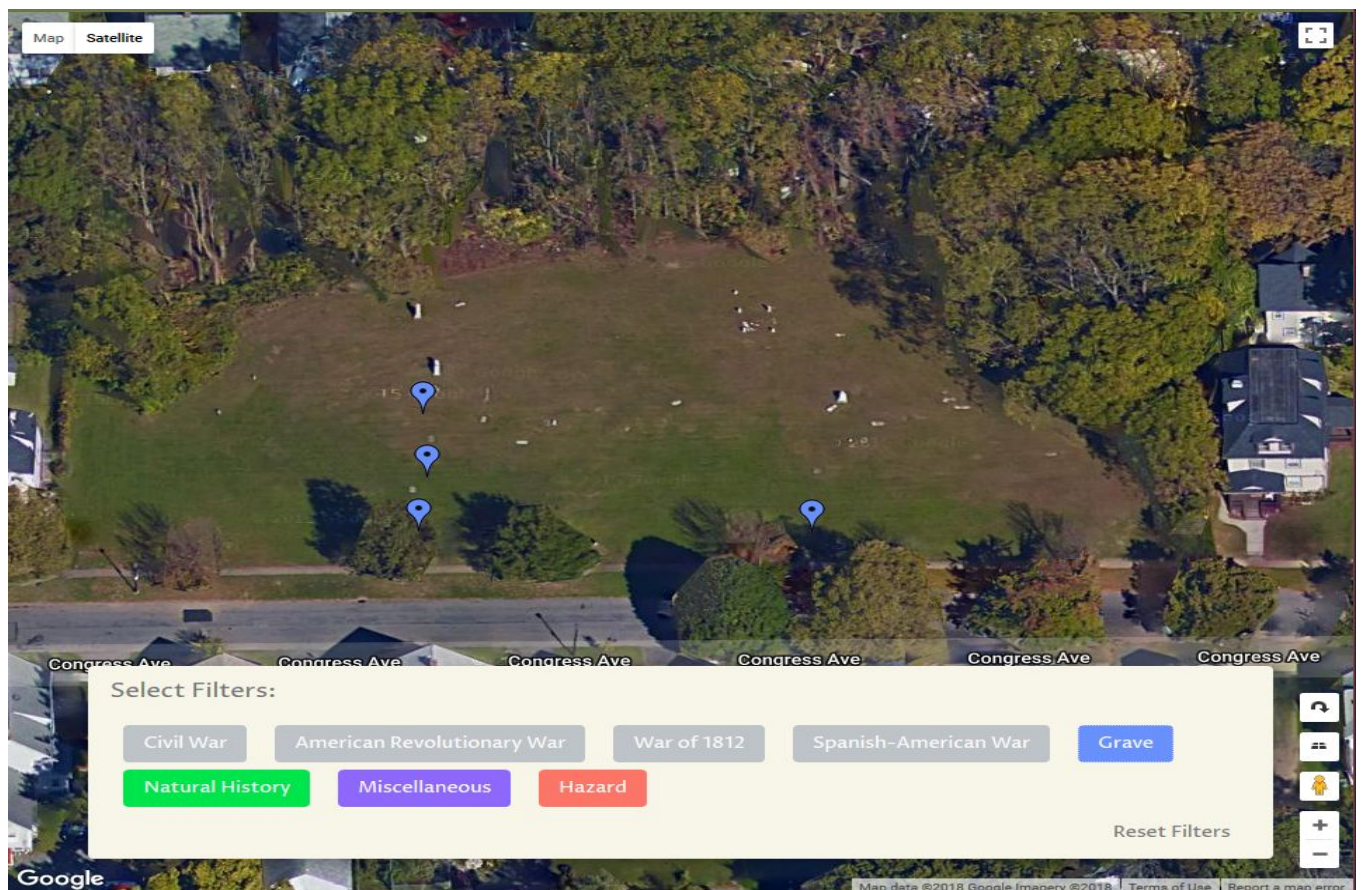

Figure 5

Sorting & Filtering

Pins can be sorted by utilizing the filter bar at the bottom of the Map page (rapidsMap.php). Filters include important historic events and pin types. Only one filter can be active at a time. Upon filter selection only pins related to the selection will show (Shown in Figure 6). Selecting 'Reset Filters' will reinstantiate all pins on the map.

Figure 6 - Map Pins with Grave Filtering Selected:

Information from Pins

Pins can be selected to show basic information. Selecting the 'Learn More' button will present a modal (Shown in Figure 7). The modal lists the image and other information relevant to the pin and item type. Selecting the 'Return to Map' will return the user to the map screen, closing all previous windows (Shown in Figure 8).

Figure 8

Donations

To donate to the Rapids Cemetery a 'Donate' button at the top of the navigation menu is shown on every page. Once the user clicks that button they'll be redirected to a PayPal page to enter how much they want to donate (Shown in Figure 9). They will then be asked to log into their PayPal account. The user will need to confirm whether they have entered the correct information. Once the user confirms the information they will have successfully donated to Rapids Cemetery.

Figure 9

A screenshot of a PayPal donation interface. It features a text input field containing the value "\$20" with a vertical cursor line to its right. Below the input field, the text "USD" is displayed next to a small downward-pointing chevron icon. Below the input field and the currency indicator is a blue, rounded rectangular button with the word "Next" written in white text.

Historic Trails and Events

To learn about the historic trails in the area, click the Historic Trails button on the navigation menu on any page. The option to learn about the Historic Trails or Rochester Events can be made using the tabs at the top. When the Historic Trails tab is selected the trail information and a map of the trails are displayed. Information includes all the historic places on each trail, their address, a description of the location, and a link to learn more. (Shown in Figure 10)

12

To learn more about the events going on in the Rochester area, click the tab at the top that's labeled Rochester Events. On this page all events related to Rapids Cemetery are displayed. The location of event event is shown on a google map. The location, a description, and start and end time and dates are displayed (Shown in Figure 11).

Selecting a pin on the map provides three buttons, 'View Information', 'Visit Site', and 'Generate Route' (Shown in Figure 12).

Selecting 'View Information' displays information about the location also seen in the 'Historic Trails tab (Shown in Figure 13).

Selecting Visit Site will take the user to the main site of the location. This will take the user off of the Rapids Cemetery site.

Selecting Generate Route will show the user a route to travel to the selected location from their current location. Full directions are not provided (Shown in Figure 14).
